Statement of Professional Objectives
for Mathematics Education Programs

This is a 2-3 page typewritten, double-spaced formal paper containing:

1. a summary of educational experience;
2. a description of professional goals related to what is needed to teach in Alaska and beyond; and
3. a statement of how the program for advanced teaching candidates might help in attaining those goals. (An advanced teaching candidate is someone who is currently teaching, has taught, has experience in education or has a teaching credential/certificate with access to a classroom for field experience.)

This statement will be judged in terms of readability and style as well as compatibility of the student's objectives, expectations and the goals of the program.
