

# Women in Construction Tuition Assistance Application

2020-2021

Women in Construction tuition assistance is awarded by UAS Construction Technology to students who are completing, or intending to complete, coursework to explore a career in construction technology.

Careers in construction technology include design and computer aided drafting; estimating and scheduling construction projects; fine woodworking; welding; and in-the-field construction, such as framing, finishing, plumbing, mechanical, and electrical work.

In order to qualify for the tuition assistance you must:

- **Complete this application**
- Be a U.S. citizen or eligible non-citizen
- **Complete a cover letter** describing your interest in the construction technology field, and any past experiences with academics, past work (volunteer) experiences that you may have and, anything you would like to describe about yourself
- Commit to successfully completing every course assistance is applied; by fully engaging in class discussions, assignments and projects
- Agree to participate in evaluation and student tracking programs during studies and upon completion
- Meet with program advisory committee, as needed

The tuition assistance may be applied to more than one course (up to the resident rate) if a student demonstrates good work ethics and completion of coursework with a B or better. Assistance may be applied up to 10 credits for each individual applicant, with program head permission.
