

Automotive Technology Addendum to UAS/Juneau School District Tech Prep Agreement

April 1, 2014

University of Alaska Southeast
Automotive Technology
School of Career Education
11120 Glacier Highway
Juneau, Alaska 99801

Juneau School District
Juneau Douglas High School
Automotive Program
10014 Crazy Horse Drive
Juneau, Alaska 99801

Purpose: In addition to the general Tech Prep Agreement between the University of Alaska Southeast and Juneau School District, we have agreed to the following process and criteria with respect to the programs of *Automotive Technology*

1. The Juneau School District Automotive program will follow a curriculum coordinated with the administration and faculty of the University of Alaska Southeast pertaining to the following courses:

<u>UAS</u>		<u>JSD</u>
AUTO S102 Intro to Auto Tech	3 credits	Automotive I
AUTO S121 Auto Electrical I	3 credits	Automotive II

2. Juneau Douglas High School will teach for the attached outcomes.
3. Students must have an overall 2.0 GPA to register for university credit.
4. Students must pass a written safety test with 100% which will remain on file with the school district.
5. It is recommended that coursework for AUTO 102/121 be completed at a level of 3.0 GPA.
6. Students must successfully complete Automotive I with a minimum course GPA of 3.0 before registering for university credit in the Automotive II course.
7. Juneau School District students will complete the Automotive II course requirements in a two-semester format (the equivalent of one academic year, or approximately 36 weeks), and will be eligible to apply for credit during the second semester of the course.
8. Those electing to register for University of Alaska credit must declare so at the beginning of the semester.
9. UAS program chairs shall review and approve all course syllabi and related curriculum documents to ensure they replicate exactly what is taught in the equivalent UAS courses on campus. This includes standardized course syllabi, course objectives, textbooks, tools, equipment, and methods for evaluation of student performance.
10. In order to receive concurrent credit, the student will register for the Tech Prep class during the semester in which the competencies will be completed. The UAS grade posted will be the grade earned in that semester.
11. Any change in instructor requires suspension of this addendum.
