Instructional Design Center » Software » Presenter

Adobe Presenter is a plug-in for the **Windows** version of Powerpoint that allows you to create slideshow presentations with audio narration. It makes it easy to record audio narration, to edit your audio, and even to time the audio to match animations on your slides.

Download and Install the Adobe Presenter plug-in

**The Adobe Connect Server has been upgraded to version 9. Versions older than 9 can no longer publish to the server - you will need to update your plug-in.**

**We have the Presenter 9, Presenter 10 and Presenter 11 plug-ins available for UAS faculty and staff.**

You will need to use Adobe Presenter 9 if you have PowerPoint 2007 or a Windows Operating system earlier than Windows 7. Otherwise you can opt for Presenter 10 or 11.

Adobe Presenter 9 - <https://helpx.adobe.com/presenter/release-note/presenter-9-release-notes.html>

Adobe Presenter 10 - <https://helpx.adobe.com/presenter/release-note/presenter-10-release-notes.html>

Adobe Presenter 11 - <https://helpx.adobe.com/presenter/release-note/adobe-presenter-11-release-notes.html>

Version 11 has a bug that can cause problems in some version of PowerPoint 2013 - a description and a fix for the Presenter 11 bug is found [here](#). In some UAS computer builds the helpdesk had to help with this fix.

**Download link and license number for Adobe Presenter [🔗](#) (requires UAS login)**

**NOTE - this is a very large download (over 2 Gigabytes) - if you are having trouble downloading contact your campus to ask about alternative ways of getting the software)**

To publish to the Adobe Connect Server UAS faculty and staff must:

- Go to the Adobe Connect Server (<http://breeze.uas.alaska.edu> [🔗](#)) and login using your UAS username and password
- **AFTER logging in at least once** - contact the UAS helpdesk ([www.uas.alaska.edu/helpdesk](http://www.uas.alaska.edu/helpdesk) [🔗](#)) and ask for "publishing permission to the Adobe Connect server"
- Within Presenter, add the UAS Adobe Connect Server to your list of servers - see the [Frequently Asked Questions](#). There you'll also find step-by-step instructions for publishing to the UAS server and placing a link in your Blackboard course.

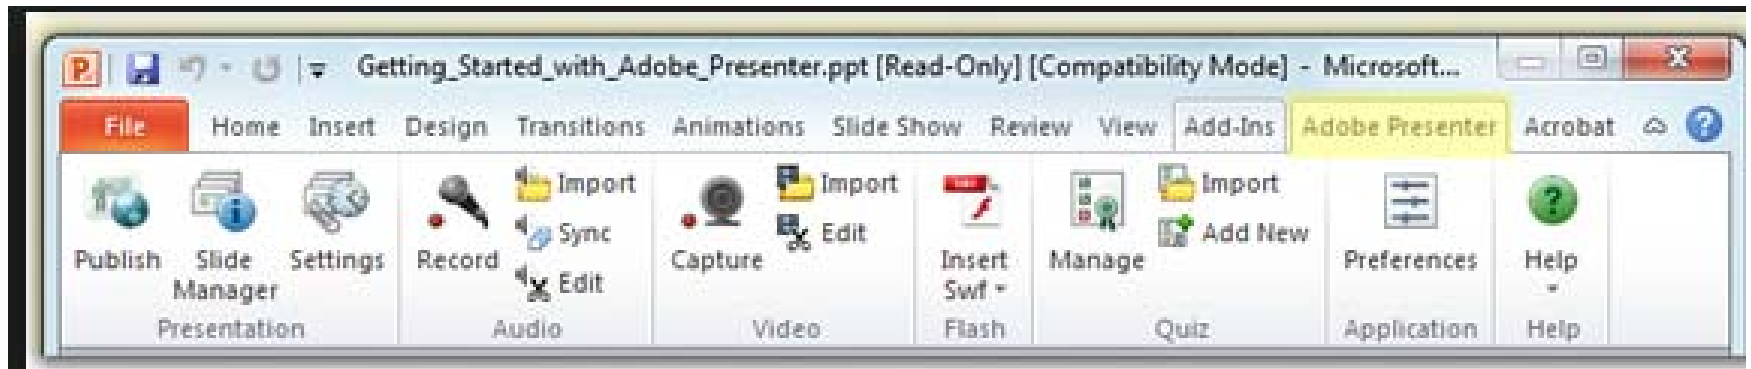

For more about Adobe Presenter see : <http://www.adobe.com/products/presenter.html> [🔗](#)

# Adobe Presenter

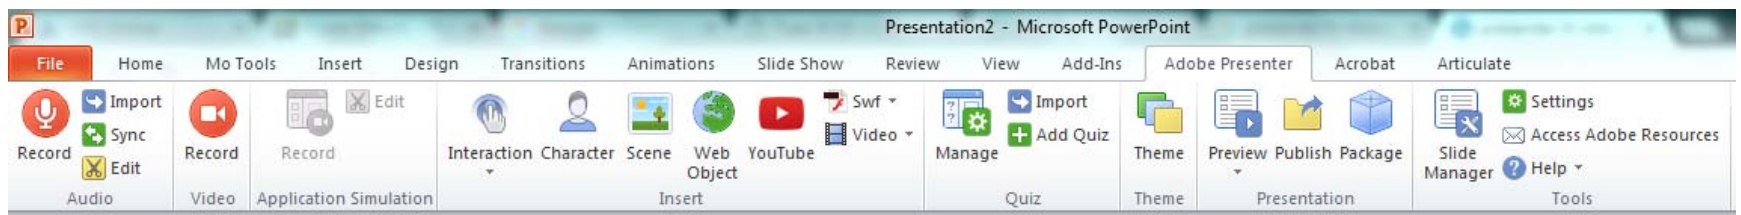

- Plug-in for PowerPoint (Windows only)
- We have a super-sweet deal
- Need Presenter 9 or higher (highest currently 11)
- User Presenter through Windows PowerPoint

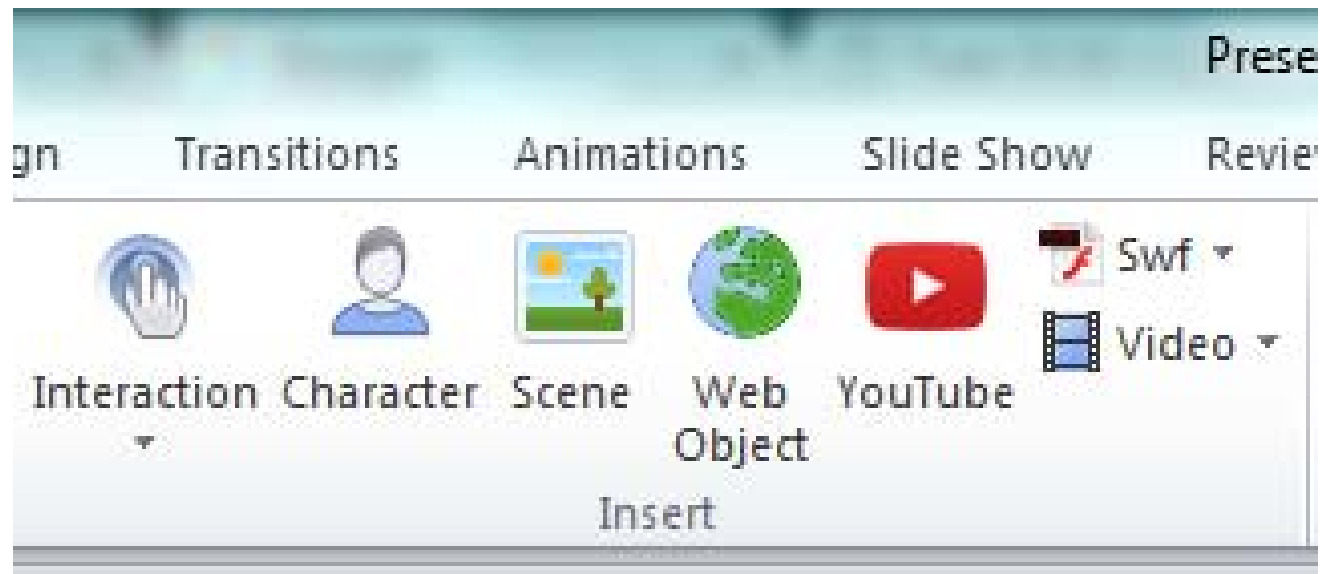

# Presenter 7

# Presenter 9-11

# What's new in Presenter 11?

# Adobe Presenter

- Make a PowerPoint slideshow
  - Concentrate on images and keywords or phrases
- Add narrative
- And more ...
