UAS Faculty and Staff:

At the September 12, 2019 Board of Regents meeting, UAS, UAA, and UAF were asked to move forward with expedited program reviews to streamline program offerings and identify potential cost savings. At UAS, faculty in a number of programs have been asked to answer specific questions related to enhancing programs, consolidating programs, and reducing program costs.

Faculty in fourteen programs have been provided specific questions to focus on in assessing program alignment with UAS' mission. Each program has been provided a deadline for submitting the review prior to the end of the calendar year.

The UAS Strategic Planning and Budget Committee and Faculty Senate will review results of the expedited reviews and make recommendations to the Executive Cabinet by March 2020. The process will conclude by April 2020.

Sincerely,

A handwritten signature in black ink, appearing to read "Karen T. Carey".

Dr. Karen T. Carey
UAS Provost
