Subject: RE: Faculty Alliance motion relating to the Electronic Faculty Activity Report.

When this matter was brought to SAC, there were many questions about the cost and utility of the project, the management of it and the like. In any event, I do not recall hearing support for continuing the project from any constituency except UAF. In fact, when the issue was brought up at a SAC meeting, UAA and UAS declined to go forward and it was my understanding that faculty opinion was taken into account in these deliberations. It was also my impression that faculty opinions were specifically reflected in the sentiments expressed by the Provosts.

In any event, thank you for this information.

Certainly we do not want to be in a situation where faculty input is ever being ignored. If you have suggestions about how this might be avoided in the future, please feel free to share your thoughts with me.
