1. Rationale (include details of prior consultation with other affected academic units):

2. Course content by topic: List main topic areas and apportion lecture and/or lab hours for each topic. Total hours must meet the minimum required hours to support the course credits (12.5 lecture hours per credit; 25 lab hours per credit). For example, a 3-credit lecture class with no lab would need 37.5 hours. Distance delivered courses should indicate the approximate number of hours for students to be involved in each topic (37.5 hours per credit for a lecture type course). For example, a 3-credit distance course with no lab would need a minimum total of 113 student hours. (If this format does not work for your topics and hours, please see alternate page 2 after signature page).

3. Academic or technical pre-requisite; technology required for access to course materials

4. List grading criteria that comprise a student's final grade (by percentage or points)

5. Identify (1) required texts (2) optional recommended texts for students, and (3) supplemental references and materials to be made available by the library.

6. List additional space, facilities, or supplies the University is expected to furnish for this course.
