

University of Alaska Legislative Internship Program

Permission for Dissemination of Application Materials

In order to facilitate placement of interns into legislative offices, the legislative internship program provides students' application materials to legislative offices interested in hosting interns. By law, we need students' assent to provide this information to interested legislative offices. Therefore, as a precondition for acceptance into the program, please sign and date below, and return to the statewide coordinator. Information will only be shared with offices if students are accepted into the legislative internship program.

I, the undersigned, give permission for Prof. Glenn Wright and UAS staff (including administrative staff) to provide my application materials to legislative offices interested in hosting interns for the 20__ legislative session.
