5. Update on RPNow Statewide Procurement (Jonas, possible Maren or Michael C)
 - a. Some input **from Maren**: UAA's current contract with RPNow ends later this year and they plan to form a group to consider alternatives. Further, they have some concerns since it is not usable on tablets and Chromebooks, and there are also ADA concerns. UAA is exploring options, and I believe their Faculty Senate is looking into this. **From Michael**: he is not aware of any current discussion about RP Now. He thought that UAF may have picked it up in 2018. Sitka campus may be using it – previously they were using ProctorU. (Update: Sitka Campus Testing Center is currently only Proctoring “one on one” using Zoom. JI) **From Mona** - UAA, UAF and UAS all have RPN setups on Blackboard but she is unclear if we have been using them in actual courses.
